DETAILED ACTION

1. Claims 12-31 and 35-37 have been withdrawn.
2. An careful reading of the claims and an updated search necessitated the new rejections below.

Specification

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, "the first identified operating flight" of lines 10 and 13 lack antecedent basis.

Allowable Subject Matter

5. Claims 32-34 are allowable.
6. The following is an examiner's statement of reasons for allowance:

As per Claim 32.

The prior art of record, specifically Garback ('499) in view of DeLorme et al ('040) further in view of DeMarcken ('808) or Webber ('953) or Guenther ('748) does not disclose or fairly teach:

identifying a first airport, the first airport being within a first threshold measurement of the activity location, wherein the first threshold measurement comprises at least one of a walking distance, a set distance and a time threshold;

Art Unit: 3639

computing an optimal arrival time from the activity start time, the activity location and the first airport;

identifying a first departing flight associated with the first airport, the identified departing flight associated with a flight arrival time and the first departing flight being between the origin location and the first airport;

wherein the flight arrival time of the first flight is prior to the optimal arrival time;

identifying an optimal ground transportation option between the first airport and the activity location; and

providing an optimal trip option for transportation from the origin location to the activity location, wherein the optimal option includes the first identified departing flight and the optimal ground transportation option.

The claims that depend from the above are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Made of Record

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sehr (6,085,976) teaches a travel system for making reservations.

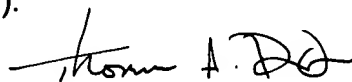

.Guenther (6,163,748) teaches a system for optimizing a travel route based on an activity start time, see meeting time column 4, lines 11-14 but does not disclose all the claimed features.
